Investment Philosophy

- FullerThaler's U.S. small-cap blend mutual fund seeks long-term capital appreciation with similar risk levels and characteristics to its benchmark, the Russell 2000® Index
- We aim to capitalize on behavioral biases that may cause the market to over-react to old, negative information (e.g., panic) or under-react to new, positive
- information (e.g., not pay attention).
- We look for companies with significant insider buying or stock repurchases (over-reaction), and large earnings surprises (under-reaction).

The Morningstar Rating for funds, or "star rating", is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The Morningstar Rating does not include any adjustment for sales loads. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-39 months of total returns, 60% five-year rating formula seems to give the most weight to the 10-year arting/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year rating for 120 or more months of total returns. While the 10-year overall star rating is for the Institutional Share Class (FTHSX) only. Different share classes may have different ratings. Morningstar Category/Morningstar Category % Rank Investments are placed into Morningstar categories based on their compositions and portfolio statistics so that investors can make meaningful comparisons.
