

FullerThaler Behavioral Mid-Cap Equity Fund

Investment Philosophy

- FullerThaler's mid cap blend fund seeks long-term capital appreciation with similar risk levels and characteristics to its benchmark, the Russell MidCap® Index. Seeks to capitalize on behavioral biases that may cause the market to over-react to historical, negative information or under-react to new, positive information. The Fund draws from FullerThaler's over 30 years of experience in analyzing events that suggest investor misbehavior.
- Looks for companies with one or both of: significant insider buying or stock repurchases (over-reaction); large earnings surprises (under-reaction).
- Invests in domestic stocks with market capitalization similar to those included in the Russell MidCap® Index.

"The crazy thing is thinking humans always act logically."²
